PROJECT BRIEFING

ITEM	DESCRIPTION	
BID ID NO	EIC, RWSS-01/20-21	
TENDER ID	2020 RWSS 61838 1	
PROJECT TITLE	Execution of 02 Nos Individual Rural Piped Water Supply Project pertaining to the Gondia & Bhuban Block of Dhenkanal district including five years Operation & Maintenancein EPC Mode.	
	1. Execution of Mega Piped Water Supply Project pertaining to the Bhubana Block of Dhenkanal district.	
	2. Execution of Mega Piped Water Supply Project pertaining to the Gondia Block of Dhenkanal district	
TYPE OF CONTRACT	Engineering Procurement & Construction (EPC)	
NO. OF COVERS	2	
MODE OF SUBMISSION	Online	
PROJECT COST	339.38 Crores	
EMD	3.39 Crores	
COMPLETION OF WORK	24 Months (2 Years)	
IMPORTANT DATES	Bid Release - 03 – 07 – 2020	
	Bid Clarification - 09 – 07 – 2020	
	Bid Submission - 17 – 08 – 2020 @ 5 PM	
	Bid Opening - 21 – 08 – 2020 @ 11 AM	
PRE BID MEETING	10 JULY 2020 @ 11 AM	
PRE BID MEETING PLACE	EIC RWSS Odisha Bhubaneswar	
BID OPENING PLACE	EIC RWSS Odisha Bhubaneswar	
TECHNICAL CAPACITY	 Design, execution and successful commissioning on an EPC /Turnkey basis of either of the following works as a prime contractor during last 7 years upto Bid submission deadline. a) One similar water supply work costing not less than the amount equal to 80% of estimated cost. (Or) 	
	b) Two similar water supply works each costing not less than the amount equal to 50% of estimated cost. (Or)	
	c) Three similar water supply works each costing not less than the amount equal to 40% of estimated cost.	
	 2. For demonstrating technical capacity and experience (the "Technical Capacity"), the bidder shall, over the past 7 (seven) financial years preceding the Application Due Date, have experience in the following and have received payments for construction of eligible projects (s) or has undertaken construction of eligible projects by itself in PPP mode, such that the sum total thereof is more than Rs.848.45 crore (The "threshold technical capacity): * This amount should be equivalent to two & half times of the estimated cost of the project for which bids are being invited. 	
FINANCIAL CAPACITY	(B) Financial Capacity: In order to demonstrate "Financial Capacity"	
	(b) mancial capacity. In order to demonstrate Financial capacity	

#703, DEGA TOWER, SOMAJIGUDA, RAJ BHAVAN ROAD. HYDERABAD – 500082 | WWW.PHANS4.COM

	 The bidder shall have a minimum Net Worth of Rs. 33.94 crore at the close of the preceding financial year (* insert Rs as 10% of the estimated cost of the project for which bids are being invited). The bidder shall have a minimum average annual turnover (calculated as total certified payments received for contracts in progress and or completed, within the last 3 financial years divided by of Rs.101.81 Crore (insert Rs. i.e. 30% of the estimated cost of the project).
DETAILED SCOPE OF WORK	The scope of work of each PWS project will broadly include survey, investigation, cost estimate, intake arrangement, raw water, rising main, WTP, CWR, Storage reservoir, pumping station and distribution network, installing raw water pumps, clear water pumps & motors, providing external power supply, internal electrification, installing flow meters, providing automation and SCADA system etc.as detailed at Annex-I of Schedule- B of Draft Agreement and Operation & maintenance of the project during the defect liability period, which is expected to be 01 year. For majors structures the defect liability period shall be 05 years which shall be concurrent with O & M period. (A)- Source & Head Works (B)- Raw water Pumping Main (C)- Water Treatment plant& pump house (D)- Clear water Pumping Main (E)- RCC Storage Reservoir (F)- Distribution Net Work (G)- Mechanical & Electrical Installations (H)- Instrumentation & Automation (I)- House Connections
PERFORMANCE SECURITY	10 % of the contract value

S.NO	ITEM	DESCIRPTION
1.	Project	All the villages and habitations and provision for bulk water supply poir
	Beneficiaries	to en-route covered villages/habitations coming Across in the pipeli
		network. The bidder has to access the list often-routed villages duri
		survey & site visit and the details along with population shall be submitt
		with the tender.
2.	Project Design Year	30 years taking base as 2022 year
3.	Project Clear	(70 LPCD at consumer end excluding 15 LPCD to be considered
01	Water Demand	as losses and institutional demand) The same has to assessed by
		the bidder.
4.	Source Of	Only surface water sources
	Water	
5.	Reservoir Level	To be assessed by the bidder
6.	Source Of Raw	River/Reservoir. All villages are to be supplied with PWS.
	Water	The villages which are in the hilly area or at a high altitude & not feasily
		for boosting/pumping from rising main, alternate arrangement f
		supply of water is to be made by considering local sources of water. (
_		be assessed by the bidder)
7.	Intake Location	1. Execution of Mega Piped Water Supply Project pertaining to t Bhubana Block of Dhenkanal district.
		Source 1: Brahmani River
		Near Location:- G.P Marthapur,
		Vill-: Govind Vidhya Dharapur.
		2. Execution of Mega Piped Water Supply Project pertaining to t
		Gondia Block of Dhenkanal district.
		Source 1: Brahmani River
		Near Location:- G.P.:Mandar,
		Vill-:Dalar
8.	Reservoir levels	To be Assessed by the Bidder
9.	Source of raw	River/Reservoir. All villages are to be supplied with PWS. The villag
	water	which are in the hilly area or at a high altitude & not feasible f
		boosting/pumping from rising main, alternate arrangement for supply
		water is to be made by considering
10	Dine	local sources of water. (to be assessed by the bidder)
10.	Pipe material	DI of suitable Class confirming to IS: 8329
	for Raw water	Hours of flow per day – 20 hours
11.	Rising main Pipe material	Pipe material:
11.	for Clear water	i) Ductile Iron (DI)-suitable class conforming to IS:8329 for all risi
	rising main	mains/transmission mains up to MBRs/Zonal balancing tanks.
		ii) For in village/habitation <mark>distribution system HDPE pipes</mark> of requir
		pressure rating to be used from ESR to in village/ habitation distributi
	1	level. The dia of HDPE pipe shall be restricted within 160mm.

#703, DEGA TOWER, SOMAJIGUDA, RAJ BHAVAN ROAD. HYDERABAD – 500082 | WWW.PHANS4.COM

		 iii) For gravity pipelines from MBR/zonal balancing tanks to the ESR (if provided at villages) or to the beginning of the village boundary, HDPE pipes of required pressure rating shall be used except HDPE pipes up to 160mm. Hours of flow per day: Minimum 8 hours/day (to be assessed by the bidder as per condition) 	
12.	WTP	Conventional Treatment Capacity – Ultimate design year demand Operation time – 20 hours/day	
13.	Supply point at each village /habitation	 Treated water shall be fed to proposed OHT. Then from ESR/OHT, water will be supplied to the habitation distribution system by gravity/ for elevated areas boosting, pumping stations with sump shall be provided. For newly constructed project, the distribution pipelines will be laid through the village& all the habitation with house service connection and taping facility at public places. House service connection facilities shall be provided in all the consumers of the habitations so as to enable the consumers to collect water. The total volume of service storage to be provided shall be for 12 hours of the ultimate design flow per day. This is excluding the storage required for MBR and at WTP. Minimum ESR capacity shall be 50,000 ltrs (maximum capacity bidder assessment) & shall be filled up twice a day. Only if the topography permits, the water supply system shall be design to ensure that at least 50% of flow from MBR/ zonal balancing tanks/ ESR shall be through gravity. There should be provision for one storage reservoir in each village. Tap point refers to Stand post. Provision for 2 stand post at each habitation shall be provided. 	
14.	Power Supply	The power supply shall be provided by local Electricity Board at each site via the provision of single dedicated feeder	

MEGA PIPED WATER SUPPLY SCHEME TO GP's OF BHUBAN & GONDIA BLOCK

.S.No	ltem	Description – Population 2011
1.	Bhuban block	1,45,348
2.	Gondia block	1,91,146
